

# Grammys Controversy

By: Addison Weldele

The Grammys have been around for 65 years now. The Grammys are awards presented in the music industry for “Outstanding” achievements. This being said, this also leads to a lot of conflicting opinions surrounding the Grammys. There is a lot of controversy on who should have won the award this year and how other people reacted during the Grammys. Now let's get into the real reason why you are here, the drama from the Grammys 2023.

First, the winning album award. This was awarded to Harry Styles for his ‘Harry’s House’ album. However, many believe that Beyonce should have won the award with her ‘Renaissance’ album. This was Harry Styles’ 3rd time winning an award, and even he himself seemed surprised when he won. When he went up to go accept his prize he stated, “This doesn’t happen to people like me very often.” This drew a lot of attention to him since he had already won the award 3 other times.

Many Beyonce fans are mad at Styles for his win. Even though Beyonce had already won 32 other Grammy awards in the past, they were mad about the fact that she has yet to win an album of the year award.

However, many people also believe she is just being selfish. Winning 32 Grammys in her music career, many people cynically asked if that ‘wasn’t enough’ for her. The controversy between Beyonce and Styles also happened partly because Styles is the 33rd white man to accept this award. However, a black woman has yet to win this award since Lauryn Hill won it in the late 90s

Rumors started to spread like wildfire that Adele walked out of the Grammy’s when Styles got announced for his award. There is a clip, which has received more than 9 million views, of Adele and Lizzo at the Grammy’s. Lizzo goes crazy when Styles’ name is announced, congratulating him. Adele, however, remained seated. Users were quick to compare reactions and stated that Adele was “not happy” with Styles’ win. Although many people were not happy with Styles’ win, hundreds of people still congratulated Styles on his win.

So now that the grammy controversy has officially settled down, what are your thoughts on the decisions? Do you think that Styles should have won, or do you think Beyonce should have won?
