

## Israel and Hamas War

By : Kilean Aguilar

On October 7th Hamas coordinated a surprise attack on Israel that saw 3,000 rockets launched from the Gaza Strip currently held by Hamas which borders Israel. Approximately 3,000 civilians have died as a result of this attack. Among those 3,000 civilians 23 of them have been confirmed to be U.S citizens. Israel has declared war on Hamas as retaliation against Hamas attack.

Israel has sent thousands of missiles and rockets to cities in Hamas such as Gaza. Gaza has suffered most from Israel as many have died and the city is turned into ruins. Israel has also placed a block aide on Gaza so NO supplies can enter or leave the city.

Israeli Prime Minister Benjamin Netanyahu said “ “From the moment Israel was attacked, you've rightly drawn a clear line between the forces of civilization and the forces of barbarism,”. He also went on to state that Israel wouldn't be backing down and expects a long awaited war with Hamas. Many innocent children's lives are being taken over this war with many schools being destroyed and children dying and being impacted by this event.
